

Writing for the Fall City Neighbors Newsletter

Thanks for your interest in the Newsletter. The following is an attempt to answer your request for story guidelines. There have been no written guidelines, so I will try to share what seems to have evolved over the years.

- Most importantly, we write about what unites us, not what divides us. We are glad to share contact information on any difficult issues facing the community, but feel that debate on them happens best elsewhere.
- We prefer not to write about issues that are covered pretty completely in the Valley Record or other local papers.
- “Putting faces” on Fall City neighbors and encouraging communication and service within Fall City are priorities.
- Length of articles can vary widely, depending on the content.
- Photographs or graphics are desirable. I can help provide these if necessary.
- The ability to publish an article depends on space available in the coming issue(s).
- I’d prefer ideas for articles be proposed in advance.
- I can provide preferred format for submissions, if desired.

That’s all I can think of this first draft! Do ask other questions and help me think about other things that should be covered.
