

Suggested Q's for Participants and Facilitators

"Where Can I Make a Difference?"

Options: If one Q or your own Q resonates, dig in to start your plan design. If not sure, sort out a few Q's with your Facilitator or mates.

Report out your selected Q's at the 1pm Wrap Up.

HOW CAN I / WE:

- Get food to the table as simply as possible?
- Eliminate expensive steps in the food chain?
- Reduce food waste?
- Reduce herbicides in rainy western WA? (Rain promotes weeds.)
- For commercial farmers vs/or individual growers?
- Help girls get educated at least through the 10th grade, here and everywhere?
- Influence big contributors to CC reduce /change their emissions? Government? PSE? Car manufacturers, Grocery stores? Airlines? Restaurants? Chain stores? Costco? Banks? Schools?
- Thank/support those who are making a difference?
- Better understand* our local food sources? *Ask Q's of and visit farmers, connect via CSA, more local sources?
- Connect with local climate change-oriented environmental groups?
- Encourage more use of electrical, geothermal, solar, wind, and non-carbon emitting energy sources?
- How can I support any and all food sources & know which sources represent a climate change win-win???
- Promote the idea/understanding of "sustainability"?
- Invite people/students to help apply this standard more broadly?
- Support locally sustainable agriculture?
- Support our community in improving climate change practices?
- Make a Difference among my friends and family?
- Encourage eating a more plant-rich and nutritious diet?
- Improve heating and cooling efficiency through insulation?
- Better protect my soil?
- Increase my awareness of the impact my actions have on the wider human and natural world?
- Shift my actions so that my impact on the planet is more beneficial?
- Your own idea!

We, the planning team, want to support you in creating:

- Provide meet up spaces
- Get your write ups into social and news media,
- Provide connections to people/data/ books/resources/environmental groups.
- Other needs?

ASK Us:

- Susan Miller, Chief Organizer, Master Gardener, Columnist, passionate about soil and Drawdown's Climate Change susanamiller@hotmail.com
